ORGANIZATION ACTIVITY TYPE

- Academic / Higher Education

BRIEF DESCRIPTION OF THE ORGANIZATION

State Higher Education Institution

SPECIFIC EXPERTISE/CORE TECHNOLOGIES

System analysis, Control and Informatics

EXPERT I

Iosif Grigorievitch Ten

Candidate of technical sciences; Professor; Head of Software Engineering department; System analysis, Control and Informatics, Design and development decision support systems, Information quality;

Email: tenig@mail.ru

EXPERT II

Indira Rafikovna Musina

Candidate of technical sciences; Associate Professor; Deputy of the Head of Software Engineering department; System analysis, Control and Informatics, Design and development decision support systems, Software Engineering.

Email: musina-indira@yandex.ru

INTERNATIONAL COOPERATION EXPERIENCE

Tempus Joint Project HEICA (Higher Education Initiative for Informatics in Central Asia) January 15, 2010 — January 15, 2013

KEY WORDS ON CORE COMPETENCIES

Software Engineering, Decision support systems, Control by dynamic objects under uncertainty

ORGANIZATION CONNECTION TO THE H2020 RESEARCH OBJECTIVES

Topics-areas	Of interest	Worked Before	Capable in this area
ICT in 'Excellent science'			
<i>Research infrastructures</i>			
Development, deployment and operation of ICT-based e-	☒	☒	☒

infrastructures			
ICT in 'Leadership in Enabling and Industrial Technologies'			
<i>Future Internet</i>			
Tools and Methods for Software Development	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

OTHER POTENTIAL RESEARCH INTERESTS

Design and development of the decision support systems as an e-government system to eradicate corrupt practices at distribution the national budget/state budget.
