

Armenia Programme title:	ISTC
Acronym:	
Programme owner:	
Description:	<p>Through Science Project program, the ISTC solicits scientific project proposals from institutes throughout the CIS and provides funding and logistic support to project teams.</p> <p>Project teams receive written concurrence from the host country on whose territory their research will be conducted, and then develop and execute their project with foreign collaborating organizations. Foreign collaborators ensure the project goals contribute to the state-of-the-art in the field, and that results will find applications in real problems in basic and applied research</p>
