Programme description	The DAAD funds the development and introduction of high-quality, internationally competitive study and research programmes for qualified foreign students, (post)graduates, academics and researchers who, for their part, contribute to the outstanding teaching and research offered in Germany. The DAAD also encourages the creation of hospitable frameworks for foreigners (status and work permit legislation, guidance-counselling, and much more) and helps higher education institutions position themselves in the international "education market" by carrying out information and advertising campaigns
