

Funding source	Austrian Development Agency (ADA)
Targeted countries	Companies from Austria and other EU member countries or the Swiss Confederation, who had a business in Moldova
Programme objectives	Enterprises investing in or importing goods from developing countries can make a considerable contribution to their development. By mobilising capital and know-how, building up supply chains and creating jobs, they help to improve the standard of living of the local population. The Business partnerships programme supports and promotes entrepreneurs from within the European Economic Area or Switzerland with their involvement in developing countries
